Certificate of Corrections Branch

Commissioner for Patents

P.O. Box 1450

Alexandria, VA 22313-1450

Sir:

In reviewing the above-identified patent, a typographical USPTO printing error was discovered therein requiring correction in order to conform to the Official Record in the application. None of the below corrections should be considered substantive in nature, but instead merely correct obvious errors therein.

The errors noted are set forth on the attached copy of Form PTO-1050 (Rev. 3-82) in the manner required by the Commissioner's Notice.

Specifically, upon reviewing the claims 1, 8 and 9 of the issued patent the errors in the attached form were noted. These errors occurred as a result of a USPTO printing error of U.S. Patent No. 7,212,556 B1.

Applicants respectfully submit that corrections to the claims 1, 8 and 9 are supported by Amendment After Final Rejection filed by Applicants' representative on August 7, 2006.

Since this error was a result of an error on the part of the USPTO, no fees associated with the Certificate of Correction are believed to be due at this time. However, the Commissioner is hereby authorized to charge any fees connected with this filing which may be required now, or credit any overpayment to Deposit Account No. 19-2380.

Respectfully submitted,

NIXON PEABODY LLP
